ST AUTO PEBS®

OUR INNOVATION  
FOR YOUR SAFETY

The innovative ST-Auto-PEBS device prevents short circuits and the resulting fires in electric cars.

The Smartesla-automotive-Pebs can absorb up to 1000A current and completely protect the vehicle from short circuits caused by batteries, cables or accidents.

Das innovative ST-Auto-PEBS Gerät, verhindert Kurzschlüsse und die daraus resultierenden Brände in Elektroautos.

Das Smartesla-automotive-Pebs kann bis zu 1000A Strom absorbieren und das Fahrzeug vollständig vor Kurzschlüssen, die durch Batterien, Kabel oder Unfälle verursacht werden, schützen.

Inovativni uređaj ST-Auto-PEBS sprječava kratke spojeve i nastale požare u električnim automobilima.

Smartesla-automotive-Pebs može apsorbirati do 1000 A struje i potpuno zaštititi vozilo od kratkog spoja uzrokovanog baterijama, kablovima ili udesima.
